INTERNSHIP

Full-Stack Web Development Intern   May 2024 – June 2024
Varcons Technologies Pvt. Ltd. | Live Demo | Source-Code

- Developed a responsive website for **Azayd Technologies**, a payroll-focused IT consulting firm, using **HTML, CSS, and JavaScript**, enhancing device compatibility and visual appeal.
- **Improved load times by 30%** and optimized design, **increasing responsiveness by 25%** for mobile and desktop.
- Built server-side functionality with **NodeJS** and **ExpressJS**, enhancing request handling and **reducing server response time by 40%**.
- Designed and implemented a **MySQL** database, achieving a **50% improvement** in data retrieval speed.
- Leveraged **Git** and **GitHub** for version control, ensuring **100% code integrity**, and enabling seamless collaboration with the team.

PROJECTS

Azayd – IT Consultancy Website / Technologies: JavaScript, NodeJS, ExpressJS, MySQL
Source-Code | Live Demo

- Developed using **HTML, CSS, Javascript, NodeJS, ExpressJS** and **MySQL**.
- Ensures a seamless user experience across all devices.
- Interactive sections providing comprehensive information about services.
- Efficient handling of client interactions and project management through a robust back-end system.

GenKey – Password Generator Website / Technologies: React, TailwindCSS
Source-Code | Live Demo

- Designed and developed a responsive **password generator** application using **ReactJS** and **TailwindCSS**, ensuring compatibility across devices.
- Implemented dynamic password customization options, allowing users to adjust length and include/exclude numbers or special characters.
- Utilized **React hooks** (useState, useRef, and useCallback) to efficiently manage state, optimize performance, and handle DOM interactions.

Portfolio Website / Technologies: HTML, CSS, JavaScript
Source-Code | Live Demo

- Developed a responsive **personal portfolio website** using **HTML** and **CSS**, showcasing projects and skills
- Enhanced the website's aesthetic appeal with **modern UI/UX principles**, ensuring a professional and polished presentation.
- Implemented a **mobile-first approach** to ensure the portfolio is accessible and visually appealing on all screen sizes.
